# The return of MARCO POLO

## Memories of a journey

A composition by Marco Ambrosini & Katharina Dustmann

Marco Polo's fantastic reports in ancient Italian language in his work *Il Milione*, published for the first time in 1308 inspired to this Odysee following the traces of the first world-traveller.

The two composers are guiding us through a labyrinth of medieval music, Jazz and Oriental melisma.

These elements once brought together, going beyond historical and geographic boundaries tell a story - the myth of a marvellous dream.
